Seminars

See <http://www.astro.lu.se/Seminars/> and <http://particle.thep.lu.se/Seminars/>

Visitors

29-14 Eric Josselin (Montpellier) visits Julien Lambert and Nils Ryde to work on water in stars

Absences, trips and other travel

3-4 Bo Söderberg goes to Göteborg to assist in the theoretical part of the final of the Wallenberg physics competition, and discuss this year's Physics olympiad
4-17 Roman Pasechnik attends the What is Dark Matter? workshop at Nordita, Stockholm
6-9 Melvyn B. Davies visits the Institute of Astronomy, Cambridge, and gives the Astronomy Colloquium
12-13 Dainis Dravins and Tiphaine Lagadec give talks at the Workshop on Hanbury Brown and Twiss Interferometry: Prospects for astrophysics and quantum optics, Observatoire de la Côte d'Azur, Nice
12-14 Lennart Lindegren attends a Gaia/AGIS meeting in Dresden
15 Sofia Feltzing attends an informal meeting on the European Southern Observatory at VR, Stockholm
12-16 Ross Church, Melvyn B. Davies, Kalle Jansson and Anders Johansen attend The Formation of the Solar System in Bonn
20-30 Sofia Feltzing attends Great Barriers in Galactic Archaeology, in Palm Cove, Australia

Important dates, seminars and events

5 COMPUTE seminar, 14.15, Lundmarksalen, Martin Rosvall (Umeå University)
14 Department board meeting 13:15
26 Master's thesis seminar Wilhelm Krüger (10.30 in Lundmarksalen)
26 Master's thesis seminar Joel Wallenius (13.30 in Lundmarksalen)
27 Master's thesis seminar Giorgi Kokaia (10.30 in Lundmarksalen)
28 Master's thesis seminar Ryan Skeoch (10.30 in Lundmarksalen)
28 Master's thesis seminar Ylva Götberg (13.30 in Lundmarksalen)
27 COMPUTE seminar, 14.15, Lundmarksalen, Freddy Ståhlberg (Dept. of Medical Radiation Physics)

The ATP newsletter is edited by Malin Sjødahl and Ross Church. Please email information to malin.sjodahl@thep.lu.se and ross@astro.lu.se by the last day of the month for inclusion in next month's newsletter.
